## PROFILE

I have demonstrated my ambition to search for a stimulating environment by working in various industries and top companies across Poland, China, Italy, the UK and now Australia. Having discovered programming, I found something where I can harness my creativity and academics to the point of finding a "flow" state of being.

## RELATED PROJECTS

### Tic Tac Toe

A game in vanilla JS with great css effects.  
pkijowska.github.io/tictactoe/

### Animal Shelter

A platform build in rails where you can donate money to support animals of choice
